

Acoustic Mixed Flow Inline Fan

- High performance mixed flow fan - ideal for ducted applications
- Low noise operation
- Low energy EC motors
- Fully attenuated case
- Low profile design
- Rugged mounting foot design

Vent-Axia acoustic inline fan

The new acoustic inline fan from Vent-Axia is designed for quick and easy install to provided ultra-quiet ducted ventilation. Designed with inbuilt acoustic insulation which reduces noise whilst maintaining great airflow.

Long life, low energy motor

Fitted with an energy efficient, long life brushless EC motor, the fan is designed to minimise energy use whilst providing a long trouble-free life. With a free air volume of 80l/s at only 17watts the 150mm model has market leading performance.

Low noise

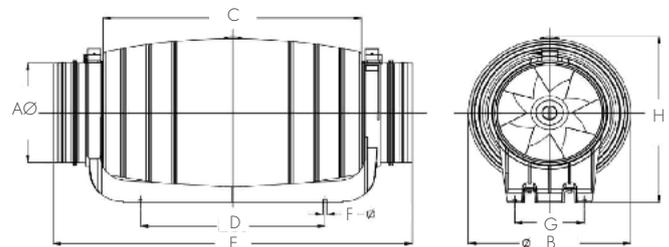

With sound levels as low as 28dBA its one of the quietest mixed flow fans available and offers a great solution where performance cannot be compromised, but low running noises are also required.
